

David Carr ... **Intelligent Designer**

America is a “Nation under God” at least in its history. Its past was deliberately involved in teaching children, “who they are, where they came from, and where they’re going!” To do that was to indoctrinate them of an “Intelligent Designer.” America’s leaders decided to suppress the truth and feed our children the propaganda and philosophy of evolution. A vast majority of our contemporary Scientist deny the existence of an “Intelligent Designer,” mainly because they’re either atheist or agnostic. They teach a definition of natural science and hold life evolved entirely without any intervention of a **Higher Being**. They offer an alternative explanation in the theories of evolution based solely upon discoveries of someone’s ideas. I recommend a trip to the **Creation Museum** in Petersburg, Kentucky (Exit 11) west on I 275 in northern Kentucky for an uplifting educational experience about the “Intelligent Designer!” Truly it will be a breath taking experience. I trust you will appreciate this poem originating from the heart and pen of a Rockcastle County High School student. Her name is Carri Hunt.
